Courses of Study.

THE ACADEMIC AND TEACHERS' COURSE.

This course is arranged with reference to a thorough preparation for college; also, to qualify young men and young women for teaching in common and graded schools, and further, to furnish the bases of a business education to those whose time will not allow them to complete a full college course.

This course presents some advantages over the ordinary academy or seminary, among which are the following:

1. All the advantages of the University proper, as Apparatus, Library, Laboratory, Museum, etc.

2. The advantages of regular training under experienced professors, who make each department a specialty, and thus attain excellence in teaching.

3. Association with the collegiate students, furnishing, as it does, a stimulating, intellectual, and social atmosphere.

The course in Latin—including the preparatory studies—extends through fifteen terms, or five years. The course in Greek, including the preparatory studies, extends through twelve terms, or four years. Students pursuing the Classical Course are allowed to elect German in the Sophomore and Junior years, instead of certain regular studies. The completion of this course entitles the student to the degree of *Bachelor of Arts*, (A. B.)

II. The Scientific Course, including the German and Latin, when completed, entitles the student to the degree of *Bachelor of Science*, (B. S.)

The curriculum in the Scientific Department embraces all the studies of the Regular Course, except the Greek and a part of the Latin, together with many special studies deemed desirable.

Attention is called to the thorough course offered by the University in the Natural Sciences, arranged, as it is, with a view to the higher discussions in the different branches, as well as the ordinary facts and principles.

Examinations for advanced standing will be held on the first day of each Term; but students thus admitted must attend at least one year before graduation.

College of Music.

FACULTY.

W. H. H. ADAMS, D. D., President.

PROFESSORS:

F. A. PARKER, Dean,
Piano, Organ, Voice Culture and Harmony.

*F. MUELLER, Jr.,
Piano Forte.

FLORA M. HUNTER,
Piano Forte and Harmony.

MINNIE J. TARBOX,

INFORMATION.

The success attending the first year of the Department of Music has led to a reorganization of the same with an additional member of the Faculty, and to the addition of some advantages which students will readily appreciate.

The Dean is a graduate of the "Boston Music School;" has studied under German masters at Stuttgart, and has had a large experience, as a teacher, both in this country and England.

The lady teacher of Piano and Harmony is a former pupil of Drs. Papperitz and Richter and Kapellmeister Reinecke of Leipsic, Germany, and has already given ample evidence of her excellence as a performer and instructor.

In the department of Vocal Culture, the services of Minnie J. Tarbox, a pupil of Mr. Lovetz and Madame Staylin of New York, have been secured.

VOCAL CULTURE.

In this department especial attention will be given to the formation and development of pure tone, an easy delivery and clear execution. Frequent use will be made of the *Solfeggios* and other exercises of Stark, Rossini, Concone, Luetgen and others.

PIANO FORTE.

The method of Piano teaching will be logical and uniform through all grades. Although different teachers may be employed, pains will be taken to furnish but *one system* leading progressively from the first steps to the highest development. All details of *touch* and *general technique* will be carefully taught in accordance with the method of Prof. Plaidy of the Conservatory of Leipsic, which has received the sanction of nearly all the leading pianists of the present time. Every effort will be used to develop *taste* and *conception*. Text-books: Beyer's Preliminary School, Plaidy's Technics, and the Etudes of Croisez, Burgmueller, Bertini, Heller, Cramer, Moscheles, Czerny, Clementi and others.

PIPE ORGAN.

Good facilities for the study and practice of the Pipe Organ can be had at reasonable rates.

HARMONY.

While the study of Harmony may not be essential for the *vocalist* or *pianist*, it is necessary for the *musician*, and an advantage to amateur performers of any kind. Classes will be formed to meet the wants of all.

ELEMENTARY INSTRUCTION.

An Elementary Class will be organized at the beginning of the year for the study of Notation and general musical instruction.

DIPLOMAS.

Diplomas will be granted those who attain to a suitable proficiency in either Vocal or Instrumental music, coupled with corresponding knowledge of theoretical studies.

LIBRARY.

A Library of the instrumental and vocal studies most used will be provided, from which the students may provide themselves with works for study on the payment of a small fee.

REMARKS.

It is the aim of the College to provide the best instruction and general advantages at reasonable rates; not to furnish cheap instruction at corresponding prices. Earnest pupils who are willing to work faithfully for true art culture are solicited to attend.

For purposes of general instruction in Vocal Culture or Piano playing it is thought best to continue the present system of half-hour lessons. In some cases it may be best to unite two in a class with full hour lessons, the hours remaining the same. Two lessons per week are given, except by special arrangement.

Pianos for practice in the University building.

All bills are due at the beginning of the term.

Board can be obtained as stated elsewhere in the catalogue.

General Information.

REQUISITES FOR ADMISSION.

The completion of the Academic course, or its equivalent, will admit the student to the Freshman Class.

ADVANCED STANDING.

Candidates for advanced standing are examined in the studies previously pursued by the classes they propose to enter, or in other studies equivalent to them.

Students bringing certificates from institutions of equal collegiate grade may be admitted to advanced standing, without further examinations.

Graduates of High and Grammar Schools, who have completed more or less than the preparatory course of study, will be admitted to the proper classes, without further examination, on presentation of the certificate of the principals of such schools.

TIME OF EXAMINATION.

Candidates for admission to the University will be examined on Friday and Monday, preceding the annual Commencement; also, on the first day of each term. In special cases, candidates may be examined at other times of the year.

EXAMINATIONS.

There is a regular public examination of all the classes, at the close of each term, which is conducted with such thoroughness as to exhibit clearly the student's knowledge of the subject pursued during the term; and students are advanced only after such examination.

At regular intervals during the term, the students are subjected to *written* examinations on *written* questions with a view to make the student more thorough and exact in his knowledge.

The examinations of non-resident students, in the undergraduate and post-graduate courses, will take place at the University during the last three days of the Fall and Winter terms, and during the Fall and Winter vacations to suit persons who may be in professional life. Examinations will also be held during the week preceding the annual commencement.

For non-resident students at a distance from the University, "local examinations" will be held by the Faculty, or by examiners appointed by them, on

written or printed questions, after the manner of the Oxford and Cambridge Universities, and the London University. The examinations will be thorough and impartial.

Examinations in the *whole* or *any* part of the courses will be held by the University examiners at convenient times and places, and credit will be given for each study when completed.

Examinations of non-resident students in post-graduate and under-graduate courses, for 1878, will begin Wednesday, June 12th.

Persons intending to be examined for degrees to be conferred at the commencement of 1878, must send in their names to the President at least *sixty* days before commencement day.

The *final* examinations for these degrees will be held at the University. Non-resident students must be of mature age and accustomed to study before they can be matriculated.

ELECTIVE STUDIES.

The College Course proper is arranged to admit of but few elections, viz: German in the Sophomore and Junior years, and Hebrew in the Senior year of the Classical Course. There are no elections in the Scientific Course.

UNIVERSITY EXAMINERS.

Gentlemen of State and National reputation, and Alumni of the University are appointed annually as a Board of University Examiners for non-resident students in Post-Graduate and Under-Graduate courses.

GRADE AND DEPORTMENT.

Students are marked upon the merits of the daily recitations, and this, with the examination grades, determines the final term standing. Any student falling under sixty-five per cent. in any study, will be required to reach the minimum grade by re-examination, or by pursuing the study with the following class.

A daily account is kept of all students in such a way as to afford a full exhibit of their habits in regard to regularity and punctuality in their duties, as well as the merit of the recitations in their several studies.

The final term standing of each student is read publicly at the close of the term, and a copy is sent to parents or guardians when desired.

TEXT-BOOKS.

All the text-books and books of reference used in the University can be obtained, at reasonable rates, in the city.

RELIGIOUS INSTRUCTION.

The moral and religious culture of the students is recognized by the Faculty as a matter of supreme interest.

While all sectarianism is rigidly excluded, the Faculty, on all fitting occasions, strive to inculcate the principles not only of a pure morality, but of an evangelical christianity. Students are required to attend some place of public worship on the Sabbath, such as their own preferences may dictate, or their parents or guardians designate. They are required to attend the daily worship in the College Chapel.

On all appropriate occasions, the Faculty endeavor, by personal, affectionate counsel, to stimulate the students to nobler life and Christian character. It is a matter of congratulation and devout thanksgiving that we are able to add that the moral and religious tone of our students is very high, and that it tends greatly to guard the new students that come among them.

The students of the University sustain regular and voluntary prayer meetings, which are well attended, and, in connection with the religious efforts of the Churches, have resulted, under the blessing of God, in the conversion of many of our students during the past year.

The Sunday Lectures in the University Chapel, by members of the Faculty, are designed to instruct the students in the principles of Morality and Christianity—especially showing the relations of Reason and Science to Religion and Revelation.

ADMISSION OF WOMEN.

Ladies are admitted to all departments of the University. Seven years of experience in this method of education have given no occasion to doubt the beneficial results and wisdom of this course.

The presence of competent women as Professors, gives additional advantages to the young ladies who seek collegiate culture in our halls. Parents and guardians may be assured that young women will here find a high moral tone and intellectual stimulus.

GOVERNMENT.

The laws of this institution are few and simple, but are sufficient to secure quiet and order. The object of instruction will be to form correct mental and moral habits, and to cultivate a taste for intellectual pursuits.

Punctuality in attendance at College exercises, careful observance of study hours, and gentlemanly deportment, are required of every student. Visits of pleasure, gathering in groups, or taking amusement on the Sabbath day—absence from rooms at improper hours, or unpermitted absence from town—writing upon or defacing the furniture or rooms of the College or other public buildings—wearing fire-arms or other weapons—visiting drinking saloons and billiard rooms—drinking intoxicating liquors or keeping them, except by the prescription of a physician—contracting debts without the knowledge or consent of parents or guardians—using obscene or profane language—using

tobacco, in any form, in the College buildings—refusing compliance with any requirement of the Faculty—and all other breaches of morals or good order, or violation of gentlemanly demeanor, are strictly and totally forbidden.

No student who occasions trouble in any of these particulars will be suffered to remain to exert on others a corrupting influence; but justice to our students demands that we should note the fact that such are the *esprit du corps* and high moral sentiment which prevail among them, that written laws are practically superfluous, since they will not tolerate the degrading and immoral practices which have sometimes brought disgrace upon our best colleges.

PATRONAGE.

The University is under the joint patronage of the Illinois and Central Illinois Annual Conferences of the Methodist Episcopal Church. These Conferences annually appoint visiting committees, who supervise the examinations and general management of the institution, in conjunction with the Board of Trustees.

CANDIDATES FOR THE MINISTRY.

Those contemplating the Christian ministry will here find arrangements made expressly to meet their wants. Whether intending to take a strictly professional course in the Theological school, or not, they will find the elective courses a valuable preparation for advanced standing in a Theological Seminary. The student may substitute the Hebrew Language and Exegesis for a part of the studies in the Senior year. For the preparation of the ordinary essay, the candidates for the ministry in the Junior and Senior years may substitute exercises in Homiletics.

With this same view, the *Translation* and *Interpretation* of the *Greek Testament*, will be pursued the last term of the Junior year.

These arrangements have been made in view of the large and increasing number of candidates for the Ministry in constant attendance at the University.

LOCATION.

The Illinois Wesleyan University is located in the beautiful and rapidly growing city of Bloomington, which, with a population of over 20,000, is situated at the junction of the "Illinois Central," the "Chicago, Alton & St. Louis," "Jacksonville & St. Louis," "Indianapolis, Bloomington & Western," and the "Lafayette, Bloomington & Mississippi" Railroads. The surrounding country is one of the richest and the most thickly settled districts in the west. It is diversified with native forests, extensive nurseries and rolling prairies. The city itself is abundantly supplied with pure mineral water, and is one of the most healthful, as well as the most beautiful cities in the State.

Our inland position, the enterprise and intelligence of our community, the high tone of Christian morals among us, and the remarkable healthfulness of

our city and its vicinity, offer peculiar inducements to those seeking the advantages of such an institution.

ENDOWMENT, ETC.

The permanent fund of the institution, including Funded Endowments, Bonds and their Securities, Lands, Grounds, Buildings, Museums, Apparatus, etc., may now be safely estimated at $250,000, over and above debts or liabilities of any kind.

BENEFACTIONS SOLICITED.

The Illinois Wesleyan University, being upon a firm and permanent financial basis, furnishes a safe investment for the donations, bequests and legacies of friends who may wish to perpetuate their names and beneficence through future generations. Considerable amounts of money and lands have lately been secured by the *wills* of patrons and benefactors; but large amounts are still needed to furnish Endowments, Library, Apparatus, Museum and other facilities. Donations for founding Professorships, free scholarships, prizes, etc., are earnestly invited, as being worthy objects of an intelligent Christian beneficence.

Attention is specially invited to the need of a library fund; a fund for the assistance of worthy young men and women who are struggling with poverty to educate themselves for future usefulness; a fund for the support of a school of Technology and Mechanical Arts; a fund for the ornamentation of the University campus. Donors to any of these objects will be permitted to give their names to the funds they establish.

MEHARY PROFESSORSHIP.

The bequest of ten thousand dollars generously made by Hugh Mehary, Esq., of Indiana, is designed as a beginning for the endowment of the President's chair.

MUSEUM.

The Museum has been removed from the old building into a large and airy room in the new University building, known as the Day Chapel. It comprises over four thousand specimens in Geology and Palæontology; two thousand five hundred Marine, and one thousand Fresh Water and Land Shells; a valuable Botanical collection, donated by Dr. GEORGE VASEY, which, with the valuable addition he has recently made, now represents nearly the entire flora of the State; a valuable collection of the Woods of the State, embracing over seventy different specimens—also donated by Dr. VASEY; about two hundred beautiful specimens in Ornithology, prepared and presented by R. H. HOLDER, A. M.; various specimens of Mammalogy and Herpetology; a valuable Entomological collection, prepared and presented by the late Dr. WALSH; and a fine collection of native and foreign minerals from the Smithsonian Institute at Washington,

and from various friends of the institution. It now affords excellent facilities for the practical study of Natural History in its various departments.

In addition to the above apparatus for the illustration of Natural Science, the Museum contains many miscellaneous specimens and curiosities, among which may be mentioned a collection of more than five hundred Models, recently procured from the United States Patent Office, at Washington, which form an addition to the Museum, interesting and valuable, not only as curiosities, but as illustrations of the varied applications of the principles of Physics and Mechanics.

APPARATUS.

Considerable additions have lately been made to the Chemical, Philosophical and Astronomical Apparatus, though the increasing necessities of the institution demand additional helps in this department, which we trust the generosity of the friends of the University will soon supply.

LIBRARY.

The Library has been removed to the Day Chapel, and is now accessible to all the students. Valuable additions have been made during the year, and a reading room well supplied with papers and periodicals will be ready by the opening of the Fall term.

The class of '77 presented to the Library a full set of Appleton's American Cyclopædia. Donations are solicited.

ELOCUTION.

A competent instructor in Elocution is employed to give lessons, *free of extra charge.*

By reference to the Courses of Study, it will be seen that Elocution is regarded as a part of the regular work of the students. The marked effect of this thorough discipline is seen in the correct style of delivery prevailing among the students.

All Academic students are required to take a thorough course in reading under the Professor in Elocution.

ORATORICAL PRIZE FUND.

The class of '76, upon leaving the University, established an Oratorical Prize Fund of $150. The interest on this amount will be given, annually, to that member of the Junior or Senior class who shall write and pronounce the best English oration, the decision to be made by three judges chosen by the Faculty, and confirmed by the contestants.

The first contest will be held in Amie Chapel, Tuesday, December 13th, 1877, 7:30 P. M.

LITERARY SOCIETIES.

There are two Literary Societies, the "Belles Lettres" and "Munsellian," connected with the University. They are largely attended by the students and are doing good work in the way of discipline and culture, preparatory for like duties in public life.

UNIVERSITY BUILDINGS.

The buildings—two in number—are pleasantly located in the northern part of the city, in a beautiful campus of ten acres of ground, adorned with young forest and ornamental trees—directly on the line of the Bloomington and Normal Street Railroad—thus rendering the University easy of access from any part of the two cities.

The old University Building is substantial and convenient, and affords rooms for the gentlemen's boarding hall.

The new University Building is of imposing dimensions—70x140 feet, and five stories high, including the Mansard and basement stories—and has cost one hundred thousand dollars. It is constructed of cut stone and brick, having five towers, and being located on high ground, it arrests the attention of the visitor to Bloomington, and is at once an honor to the Institution and an ornament to the city.

Its halls are ample and airy; the recitation rooms are neatly finished and inviting; the Society rooms are neatly furnished. The public Hall or Chapel is 60x80 feet, with galleries on three sides, beautifully frescoed and finished in oiled walnut and other native woods, capable of accommodating nearly 1,800 people.

EXPENSES.

PREPARATORY AND COLLEGIATE.

For Winter Term,	13.00

The payment of the above rate of tuition admits the student to all the regular classes of the University, both Preparatory and Collegiate—there being no matriculation or incidental fee—thus making the expenses of the student less than at other similar institutions.

BOARD.

Good board can be obtained in private families in the city at prices ranging from $3.50 to $4.50 per week. Students board themselves satisfactorily, in rented rooms, at $2.00 per week, and in *clubs* for $2.50 to $3.00 per week.

THE YOUNG MEN'S BOARDING HALL.

With the removal of the Museum and Library to the Day Chapel, the old College building has been fitted up as a young men's Boarding Hall, and placed under the charge of Mrs. Giddings. The price of board has been put at the lowest margin, $2.50 per week, so that a larger number of students can be furnished with pleasant accommodations, at rates within reach of all. No pains will be spared by Mrs. Giddings to make the Hall home-like and comfortable. Young men boarding in the Hall will be charged $1.00 per month for use of room.

Those wishing accommodations in the gentlemen's boarding hall should address Professor Crow, Secretary of the Faculty, before the opening of the Fall term.

YOUNG LADIES' BOARDING HALL.

The Woman's Educational Association of the University have leased the building known as Major's College and opened a Boarding Hall, on the Mount Holyoke plan. For further information see page 51.

ADVANTAGES OF BLOOMINGTON.

The attention of students from abroad is called to the advantages of Bloomington as a seat of learning. Containing, as it does, a population of 20,000, with many literary attractions,—the large museum—the facilities for studying the practical applications of science in the manufacturing establishments—the

almost continuous sessions of Courts, and the valuable Law Library, now the most extensive in the West, thus affording unusual advantages, for the study of Law, both in theory and practice—the facilities for the practical study of Anatomy and Physiology—the unusual opportunities afforded for the study of Music in all its departments—the Library, numbering 6,000 volumes, and the commodious reading rooms of the Bloomington Library Association, free to all—the regular courses of Lectures by distinguished speakers from abroad—with other advantages which an intelligent and enterprising people are constantly accumulating—all these are inducements to the student who would supplement the work of the recitation room with a general course of reading, a higher degree of culture, and a practical application of the studies pursued.

Non-Resident Students.

The University recognizing its functions to be, *primarily*, TO INSTRUCT, and *secondarily*, TO EXAMINE, while providing for the amplest instruction of resident students, has made arrangements for examining non-resident students at convenient times and places, in the studies of the several under-graduate and post-graduate courses, and for conferring upon successful candidates appropriate University degrees.

The Illinois Wesleyan University, in being the first in the United States to formally adopt the *non-resident* plan of the world-renowned London University, has met an urgent want of the American people, hitherto unrecognized in our collegiate system of instruction.

In evidence of the appreciation of the plan, we may state that a number of gentlemen, eminent in scholarship and literary reputation, have availed themselves of the opportunity thus afforded, and, after a most thorough examination, have taken appropriate degrees. A still larger number are pursuing some one of the various courses of study prescribed by the University for these.

Definite courses of study are announced in both under-graduate and post-graduate work, for non-resident students; a plan for examinations is established, and such examinations are held; and honors are conferred only when clearly merited.

A large number have matriculated as non-resident under-graduate students; and many of them have passed successful examinations in part of the course.

THE WOMAN'S EDUCATIONAL ASSOCIATION.

The right of this Society to exist may be explained in a few words. Women being admitted to the Illinois Wesleyan University, the authorities placed in the Board of Instruction competent women as professors. In view of this, many of the friends of the institution deemed it proper to express their approval, by liberally endowing at least one chair. The reasons for endowing this chair are: First, the need of more funds for the adequate support of professors; secondly, the establishing of this Woman's Professorship beyond all contingency, for all time to come. Accordingly, on the 3d of June, 1874, with the approval of the Executive Board of the University, a Society was formed, and the necessary officers were appointed; and it was subsequently approved by the joint Board of Trustees and Visitors.

OBJECTS.

The objects of this Society are: First, the endowment of a Woman's Professorship; and secondly, the raising of a fund to provide a home, and assist young women to educate themselves—especially such as are preparing to teach, or are called to missionary work.

PLANS, TERMS, ETC.

Gifts for these objects may be made according to the wishes of the donors.

For Ten Dollars, a woman may become a member.

For Ten Dollars per year, for five years, a life member.

For Five Hundred Dollars, a life manager.

For One Thousand Dollars, a life patron.

By the payment of appropriate amounts, gentlemen may become honorary members, life managers, or life patrons.

Gifts may be made on terms and time to suit donors.

Already a large number of ladies and gentlemen of different denominations have availed themselves of this opportunity to forward the cause of Christian education.

All persons wishing to become members of this Association or to contribute in any way to its funds will address, Mrs. A. R. Riggs, Financial Secretary, Bloomington, Ill.

LADIES' BOARDING HALL.

In September, 1875, the Association leased the building known as "Major's College," and opened a Ladies' Boarding Hall on the Mt. Holyoke plan, and thus put in practice its second object, namely: The establishment of a Christian Home, where young ladies, of any denomination, desiring to educate themselves can have board at the lowest possible rates.

BOARD.—$2.50 per week, with an extra charge of 25 cents per week for fuel during the winter term. Payments made each month in advance.

Young ladies will provide themselves with bed linen, one blanket, one comfort, towels, napkins and spoons; otherwise, everything necessary for their comfort will be furnished.

They will be required to devote one hour each day to domestic duties, under the direction of the Superintendent.
